

Submitted July 2023 GSR Reports

Eastsound Group, GSR Bryan P. balibluedoor@gmail.com

We're having a good time in Eastsound. In person attendance is up. We lost one meeting because of attendance, and we also have a new meeting. The new meeting is in-person only, and later in the evening. We had some people show up that haven't been to Benson Hall in a while, and we'll see what happens. Public Information made some progress in placing some business cards and rack cards and have plans to place more. Our Hybrid computer went down, and our tech team had a new one up and running quickly.

Nothing new to report this month.

North of 12, GSR Gary E. gehrheart@gmail.com

All going well, attendance has been up. No new issues and no problems at the moment.

Fire side meeting- attendance has been getting quite low.. This might not be what people want any more. usually have about 6 or so people lately, where as in summers past we would see 20 or more.

Wondering if we should keep it going.

That's all I have to report this month.
